

## Illinois State Championship Bids!

Bids are now open for the Illinois State Championships.

Go onto the State Website and fill out the online bid form. Please remember that we need all the information filled out completely to be considered for the meet. You must also upload a floor plan with details and measurements even if there has been a state meet at that site. There are 2 meets this year that would require a 2 meet gym system. Also reminder that your site must be available for all 3 days of competition, so setup would have to be the day or night before.

The meet dates are listed below along with the levels.
